

MAGIRUS TEAM CAB

SERVING HEROES. SINCE 1864.

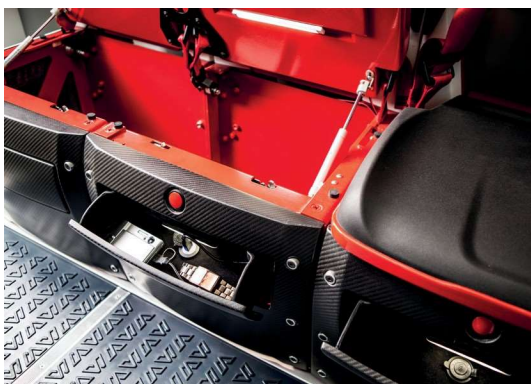

INTERIORS LED LIGHTS INCREASED VISIBILITY

The innovative LED running lights provide antiglare illumination with adjustable colors (white, green, red) and intensity to reduce stress during the mission, allowing at same time perfect visibility of the interiors.

SEATS STUDIED FOR FIREFIGHTERS

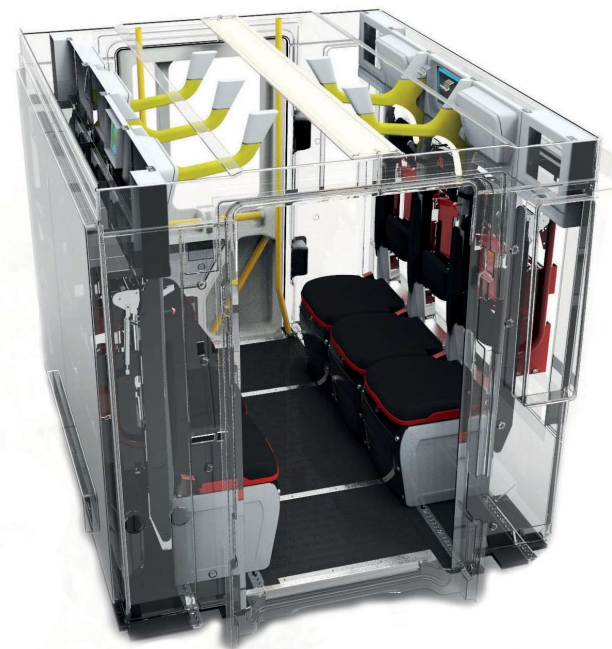

Ideal ergonomics for the seats, robust and comfortable, provided also with integrated BA and belt retractable holders.

STORAGE COMPARTMENTS MAXIMUM USE OF SPACE

Space for equipment and rapid ways of access: a big illuminated underseat compartment (up to 456 l) that allows also flexibility in configurations (single or shared box). Additional compartments (with USB port) for personal belongings also available.

Magirus TEAM Cab:
developed around firefighters.
Ideal ergonomics and maximum passenger
comfort.

SAFETY CONTENTS ABSOLUTE SAFETY ON THE HIGHEST STANDARD

- / Safety as first, the Magirus TEAM Cab is ready to respond to the latest occupants protection standards: ECE-R29/03 compliant. The safest place where the action of firefighters may start
- / Additional airbags offer our firefighters more safety
- / 3 or 4-point safety belts with practical belt holder and quick release button to guarantee maximum safety and rapid intervention

ENTRY STEPS AND DOOR QUICK AND SAFE ACCESS

The tiltable entry steps are pneumatically driven together with the door opening for a quick access to the cab. The robust door, with 90-degree opening angle, is provided with smart opening controls to offer safety and comfort.

HANDLES FIRM AND ERGONOMIC GRAB

The innovative oval-shaped profile, in yellow color, offers ideal ergonomics with firm and safe grab.

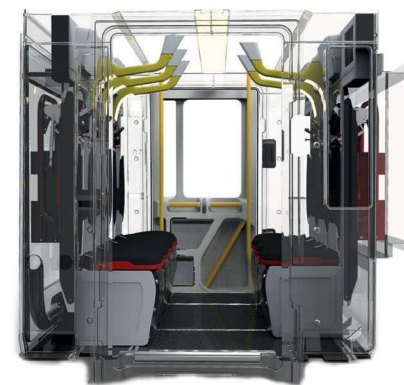

DISPLAY EVERYTHING WITHIN EYESIGHT

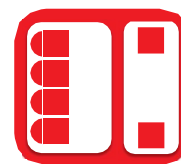

10" overhead display in front and opposite driving direction, allows front and rear camera connection to guarantee the outside view already inside the cabin.

MODULAR CONCEPT

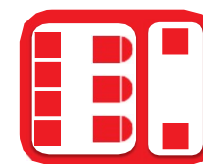

One-frame concept: our innovative modular frame, made of lightweight materials, allow us to offer a wide range of different cab dimensions, seats and storage box configurations, always with the highest safety and quality standards.
